

IN THE DRAWINGS

Applicants note that the Examiner objected to the drawings filed on September 22, 2003.

Pursuant to these objections, the following amendments have been made to the drawings:

The Examiner indicates that various reference signs were not shown in Figures 4 and 6A. However, description of these reference signs is included in the present application. In Figure 4, for example, according to the Examiner the reference signs Vbe, Vi, V2, and V3 mentioned in the Specification at page 10, line 15, and page 11, lines 8-9 and 12-13 have been not included. With regard to Figure 6A, the reference sign V described on page 15, line 20 in the Applicants' Specification has not been included either. Both Figures 4 and 6A have been amended to include the missing reference signs, as shown in the Replacement Sheets. Accordingly, reconsideration of the objections to the drawings is respectfully requested.
